## **DETAILED ACTION**

### ***Response to Amendment***

On 09/29/2010, applicant amended claims 1, 3, 19, 21, 30 and 31.

Claims 1-32 are allowed.

### ***Examiner's Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

In the environment claimed, and with the specific definitions found on pages 2-3, the prior art neither anticipates nor renders obvious the combination, inter alia:

- determining an exposure attribute and one or remaining attributes of each media buying option to be displayed, wherein at least one of the attributes is an exposure attribute;

- displaying a plot of available media buying options, wherein the media buying options are plotted against a first axis corresponding to the exposure attribute and a second axis corresponding to the remaining attribute or one of the remaining attributes;

- in response to a displayed media buying option being selected or deselected for purchase,

- recalculating the exposure attribute for each media buying option to account for the exposure of the selected or deselected media buying option, and;

- displaying a new plot of the media buying options comprising the recalculated exposure attribute.

The closest US prior art is Cannon (US 6286005), which discloses an interactive environment for analyzing data such as media buying options in advertising. However, Cannon neither anticipates nor renders obvious the combination noted above.

The closest non –patent literature is Strehl. However, Strehl neither anticipates nor renders obvious the combination noted above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
